PROFILE

Senior QA/QC Engineer with 8+ years of engineering experience since May 2018, including freelance work, and quality roles since 2020. I work across quality assurance, quality control and quality management in manufacturing and construction, turning product and project requirements into practical inspection systems, capable teams and decisions backed by evidence. [SYNTHETIC – target-role sentence; roles sought, never a held title]

KEY RESULTS

YUKSEL SAUDIA

[SYNTHETIC – verified result with figure goes here]

EIBLA FOR ENERGY

EXPERIENCE

Yuksel Saudia

Senior QA/QC Engineer ·
Head Office

March 2025 – Present

CONSTRUCTION
GOVERNANCE

Corporate quality systems, controlled documentation, audit readiness and infrastructure reporting.

- QMS & ITP coordination.
- Cross-functional evidence review.
- Power BI & department coaching.
- [SYNTHETIC – long placeholder bullet: sample wording of typical real length used only to test wrapping, rhythm and page fit; replace with a verified statement]
- [SYNTHETIC – long placeholder bullet: sample wording of typical real length used only to test wrapping, rhythm and page fit; replace with a verified statement]
- [SYNTHETIC – medium placeholder bullet that wraps onto a second line to test spacing]
- [SYNTHETIC – short placeholder bullet]

Eibla for Energy
Senior QA/QC Engineer

August 2023 – March 2025

ELECTRICAL &
MECHANICAL
MANUFACTURING

Quality leadership across mechanical manufacturing, electrical-panel assembly and warehouse operations.

QUALITY MANAGEMENT

- Incoming, process & final inspection.
- [SYNTHETIC – long placeholder bullet: sample wording of typical real length used only to test wrapping, rhythm and page fit; replace with a verified statement]
- [SYNTHETIC – short placeholder bullet]

ENGINEERING & PRODUCT QUALITY

- BOM and engineering-change control.
- [SYNTHETIC – medium placeholder bullet that wraps onto a second line to test spacing]
- [SYNTHETIC – medium placeholder bullet that wraps onto a second line to test spacing]

SUPPLIER QUALITY & IMPROVEMENT

- Customer readiness & 8D.
- [SYNTHETIC – long placeholder bullet: sample wording of typical real length used only to test wrapping, rhythm and page fit; replace with a verified statement]

El Araby Group
Quality Control →
Assistant Manager

2020 – 1 August 2023

COOKING-APPLIANCE
MANUFACTURING

Built factory QC systems and progressed to Assistant Manager, connecting team capability, inspection and process improvement.

LEADERSHIP

- Appliance assembly & manufacturing.
- [SYNTHETIC – long placeholder bullet: sample wording of typical real length used only to test wrapping, rhythm and page fit; replace with a verified statement]
- [SYNTHETIC – medium placeholder bullet that wraps onto a second line to test spacing]
- [SYNTHETIC – short placeholder bullet]

El Araby Group

Quality Control →
Assistant Manager

MANUFACTURING QUALITY CONTROL

CALIBRATION	Calibration, MSA & SPC: [SYNTHETIC — one-line detail]
RELEASE	First-piece release & traceability: [SYNTHETIC — detail that runs to a second line to test the row height]
[AREA]	[SYNTHETIC — process-area row: controls, checks and verified outcome, about two lines]
[AREA]	[SYNTHETIC — short process-area row]
[AREA]	[SYNTHETIC — process-area row: inspection points and acceptance checks, sample length only]
[AREA]	[SYNTHETIC — process-area row of typical length for layout testing only]

Freelance /
Independent
Engineering

Freelance Mechanical
Engineering

May 2018 — January 2020

INDEPENDENT
PROFESSIONAL WORK

Independent work from graduation, including SolidWorks training and engineering drawings, an ANSYS Fluent simulation project for an air ejector pump, and database development for local organizations.

SEPARATE PRACTICE

ProDigi Consult
Selected digital-solution
work
SEPARATE BODY OF WORK

Workflow design, reporting and operational tools presented as a separate body of work. Individual cases identify their context and evidence.

CAPABILITIES

Quality leadership
QMS · 8D / CAPA · Skills matrices · Audit readiness

Manufacturing improvement
Root-cause analysis · DOE · COPQ · Power BI

Inspection & measurement
Inspection plans · Calibration · Gage R&R · SPC

Engineering & release control
SolidWorks · BOM checks · Change control ·
Development samples

SKILLS grouped, most relevant first

Quality systems & governance

Quality Management
ISO 9001
Internal Audits
Corrective and Preventive Action (CAPA)
ITP
Structured Documentation

Analysis & improvement

Data Analysis
Microsoft Power BI
Microsoft Excel
Minitab
Continuous Improvement
Business Process Improvement

Inspection & measurement

Quality Inspection
Quality Control Documentation
Calibration
Product Testing
Test Planning
Statistical Process Control (SPC)

People & delivery

Leadership
Teamwork

Performance Management
Risk Management
Project Management

Engineering & manufacturing

SOLIDWORKS
AutoCAD
Ansys Fluent
Shop Drawings
Specifications
IEC 61439
LV testing

Training exposure

Ansys Products
Electric Vehicles
Load Estimation
HVAC
VRF
[SYNTHETIC – further item]

TRAINING training is not registration or certification

ISO 9001:2015 Auditor / Lead Auditor training

SGS · CQI/IRCA-certified course

Exam passed January 2026. Training completion is distinct from professional auditor registration.

Lean Six Sigma Green Belt

Attic / El Araby · March 2021

Applied statistical problem solving and manufacturing improvement.

Exercising Leadership

HarvardX · September 2025

Professional learning supporting team and organizational leadership.

Operations Management: Quality and Supply Chain

University of Illinois · May 2025

Professional learning in quality and operational systems.

EDUCATION

B.Sc. Mechanical Power Engineering
Menoufia University, 2018
